NutriPak Product Guide

Adult nutrition, built around you. | nutripak.net

About NutriPak

NutriPak is a subsidiary of Alfalah Health Care, created to make adult nutrition that people can genuinely rely on. Every formula is developed with medical and nutrition specialists for a specific need, and manufactured to internationally recognised quality standards.

SUBSET - Complete Balanced Nutrition Supplement

Balanced macro and micronutrients for daily strength, energy, and vitality. A complete supplement for everyday nutritional gaps.

- 26 essential macro- and micronutrients in one formula.
- Quality protein from whey and soy protein isolate (8.8 g per serving).
- FOS fibre and monounsaturated fats, plus a multivitamin and mineral blend.

One serving is 54 g powder (5 level scoops) mixed with water to make one 230 ml glass.

Retail price: PKR 5,500

ADA-glu - Specialized Nutrition for Diabetic Management

A carefully controlled mix of macronutrients that supports blood sugar, heart health, and weight management as part of a diabetes dietary plan.

- Low glycemic index carbohydrate source.
- Contains monounsaturated fatty acids (MUFAs) and dietary fibre (FOS).
- Natural protein from whey and soy protein isolate, with essential vitamins and minerals.

Use only under medical supervision for Type 1, Type 2, and gestational diabetes.
Contains aspartame.

Retail price: PKR 3,800

PROTEIOS - High-Quality Protein Supplement

A premium whey protein blend based on quality whey protein and whey peptides, designed for recovery, strength, and higher daily protein needs.

- Peptide rich for rapid absorption and efficient nutrient delivery.
- Supports muscle protein synthesis (MPS), recovery, and athletic performance.
- Unflavoured, so it mixes easily into everyday meals without changing taste.

Retail price: PKR 2,800

Choosing the right formula

- SUBSET: everyday balanced nutrition for adults who need extra nutrition in their daily diet.
- ADA-glu: support for people managing diabetes, as part of a plan set by their doctor or dietitian.
- PROTEIOS: extra protein for recovery, illness or injury, or higher protein requirements.

Important information

These products are not a substitute for medical treatment. Please consult your doctor before use, especially if you have an existing health condition, are pregnant or breastfeeding, or are taking medication.
