NutriPak Nutrition Fact Sheets

Per-serving reference for SUBSET, ADA-glu, and PROTEIOS. | nutripak.net

How to read this sheet

Values are taken from the product information supplied for NutriPak. Always check the physical pack label for the most current nutrition panel, batch details, and allergen statement.

SUBSET (per 230 ml glass / 54 g powder)

- Energy: 235.9 kcal (436.87 kcal per 100 g)
- Carbohydrate: 34.8 g (64.49 g per 100 g)
- Protein: 8.8 g (16.31 g per 100 g)
- Fat: 6.8 g (12.63 g per 100 g)
- Calcium: about 168 mg per 230 ml glass
- Potassium: about 380 mg per 230 ml glass
- Micronutrients: vitamins A, D, E, C and B-complex, folic acid, calcium, potassium, magnesium, iron, and zinc.
- Fiber source: FOS (fructo-oligosaccharides), a prebiotic fibre.

Note: SUBSET contains maltodextrin and sucrose and is not designed for diabetes management.

ADA-glu

A slow-release carbohydrate blend with protein, MUFAs, fibre, vitamins, and minerals, formulated for diabetes dietary management.

- Protein: 19.61 g per 100 g (whey and soy protein isolate)
- Dietary fibre: 2 g per 100 g (FOS)
- Fat source: monounsaturated fatty acids (MUFAs)
- Carbohydrate source: low glycemic index maltodextrin
- Aspartame: 71.82 mg per serving

Important: contains aspartame. People with phenylketonuria (PKU) should avoid aspartame. Use under medical supervision and glucose monitoring.

PROTEIOS

A premium unflavoured whey protein blend with whey peptides. It is designed for strength, recovery, and higher protein needs.

Per-serving nutrition values for PROTEIOS will be added once the final approved panel is supplied. Check the physical pack label in the meantime.

Allergens and usage

Products may contain milk and soy. If you have a food allergy, check the pack label before use. Do not use as a sole source of nutrition unless advised by a healthcare professional.

These products are not a substitute for medical treatment. Please consult your doctor before use.
